SKI WITH CARE & CAUTION Watch for both natural and man-made obstacles. Ice, thin or bare spots and variations of the snow surface can and do exist. Be alert to continually changing conditions. Snow, ice, sheer drop-offs, bare ground, rocks, roots, stumps, trees, lifts and snowmaking towers, ruts, bumps and many natural and man-made objects are part of the inherent risks of all alpine activities. Falls or collisions with objects can cause catastrophic injury or death. Ski area vehicles may be in operation at any time on open terrain.
DO NOT SKIRIDE NEAR SUCH VEHICLES OR EQUIPMENT. Fences, bumpers, pads, poles, signs, ropes and other apparatus are used as "Ski Awareness Devices." They mark hazards or obstacles and will not protect you from injury. Your safety is directly affected by your judgement. Failure to follow the posted "Your Responsibility Code" may result in the loss of skiing/snowboarding privileges.

Know the Code – Play It Safe Skiing and riding, in their various forms, are inherently hazardous sports. Trail and slope conditions change constantly with weather and use. It is your responsibility to avoid natural and manmade objects regardless of the presence of markings or other mitigation, and to avoid and use courtesy with other people. 5. You are responsible to prevent runaway equipment.
6. Read and obey all signs, warnings, and hazard markings.
7. Keep off closed trails and out of closed areas.
8. You must know how and be able to load, ride, and unload lifts safely. If you need assistance, ask the lift attendant.
